### **3. find out about the stakeholders/local leaders in the district:**

Who reaches many people and whom you would like to have on board for StoP work (associations, organizations, companies, politicians). Please prioritize them according to their presumed importance for StoP work (i.e. do not simply list everyone who exists in some way, but those who are indispensable for StoP publicity work because of their particular influence, knowledge and resources). You can't address them all at once, i.e. who first, who then and who last:

- **Who do I definitely need and why? (address them first)**
- **Who else is important? (address later, when some important people are already involved and you have time)**
- **Who else is there (even later, not so urgent, but don't forget)**
